- c. Consideration of approval of the Resolution No. 2018-04, exempting engineering for the Lake Park Phase II from the requirements of G.S. Commissioner Bellflowers commented the Board should not delay moving forward in the design plan with Fleming & Associates as it is tied to the dam permit. Commissioner Bellflowers commented he brought the item up for discussion as he wishes the Board to renew discussion and approval of the design of Phase II.

Mayor Warner cautioned the Board to limit the tying of hands for Fleming & Associates with imposing design limitations.

Commissioner Larson inquired if Fleming & Associates would give the Town the option to choose different plans depending on cost when designing the boardwalk and bulkhead.

Commissioner Bellflowers commented the size of boardwalk has sparked much debate which caused him to research the reason behind the sizing. Commissioner Bellflowers found the eight foot boardwalk was approved by staff as an ADA accessibility compliance which also came into play for the bulkhead and pier.

Mayor Warner commented in agreement with Commissioner Bellflowers that in order to move forward with the design, the Town must agree on a plan.

Commissioner Legge commented on the required maintenance and cleanup of the boardwalk.

Commissioner Larson suggested the Board table the discussion until the entire Board is present.

Public Works Director Hector Cruz commented if the Town were to opt for the bulkhead only, it would address the erosion issue but not allow for water access. Mr. Cruz commented staff

approved a boardwalk to allow for connectivity, ADA access and maximize the use of green space. While the bulkhead is the pricier item, it ties into the boardwalk.

Attorney Hartzog commented for clarification, that ADA compliance is a legal requirement.

The consensus of the Board was to table this item to the next meeting for vote and further discussion when the entire Board is present.

Staff is seeking authorization to respond to the Request for Proposals with a request for \$200,000 in Community Development Block Grant funds to reduce the cost of water and sewer installation for Kings Mill residents.

Commissioner Legge inquired if any Genex has been reported in that area. Mr. McLaughlin commented PWC employed the Health Department to conduct tests in that area and they are waiting for the results.
