

Announcing...

The Town of Hope Mills Adopt-A-Drain Program!

The Town's new Adopt-A-Drain program is a simple and effective way you can volunteer to help keep our water bodies clean, reduce flooding, and get involved in the community!

All you have to do is adopt a drain and, in exchange for your care, you will receive a free storm drain cleanup kit!

Here's how it works:

- You let us know what drain you want to adopt.
- If the drain is a part of the public stormwater system and has not already been adopted, we will assign it to you.
- We will give you free storm drain clean up kit.
- You agree to simply keep the debris off your adopted drain. Check it frequently, especially after storms.

By joining the Adopt-A-Drain Program you help:

1. Prevent localized flooding in your neighborhood by keeping drains free of debris.
2. Protect fish and other wildlife by keeping pollutants from entering streams, lakes and creeks.
3. Assist Town staff and crews in maintaining the Town's thousands of storm drains.

Our official "kick off" event will be held on October 1st, 2011 from 8:30-10:00 am at the Parks and Recreation Center in conjunction with the Town's Fall Litter Sweep Program. As a bonus, everyone who adopts a drain during Litter Sweep will receive a free bonus gift (while supplies last of course)! We look forward to seeing you then!
